

Ethiopia Wireless Communication Base Station EMS

Overview

This partnership successfully deployed 152 rural base stations across the country's remote regions, providing widespread 2G, 3G, and 4G mobile network coverage that benefits over 1,000,000 users in underserved areas. ZTE's Rural Ecosystem—featuring EcoSite, EcoEnergy, and EcoDevice—enabled cost-effective, energy-efficient network deployment. ZTE Corporation, a global leading provider of integrated information and communication technology solutions, has partnered with Ethio Telecom to deploy 152 rural base stations in remote areas of Ethiopia. Both the Market Review and the Cost Study have been completed and the Authority has issued determinations on defined relevant market and Telecommunications operators.
