

Extendable Payment Locker for Schools

Overview

Offer students and parents secure self-service portals to view invoices, pay bills, and track payment history anytime, anywhere. Provide reliable access to ready-to-go mobile devices needed for high academic achievement – all while maintaining control of your time and tech budget. Hardware asset management solutions that make a tangible difference in education. Time saved every year in device distribution and collection per. Gantner's smart locker systems are the perfect solution for modern learning environments. Whether battery-powered or centrally supplied, our systems integrate seamlessly with the eLoxx Suite locker management software, allowing you to easily and centrally manage lockers and data carriers. From K-12 classrooms and private academies to R&D labs and detention facilities, our cell phone lockers provide controlled, auditable access to personal devices—without daily supervision. Each locker includes:

- Network Connectivity: Connected to the school's network (hardwired + Wi-Fi backup)
- Remote Access: Remotely.

Genesis Technologies – Helping Classrooms Stay Powered and Organized If you've ever walked into a classroom at the end of the day, you know the scene—laptops scattered, cords in a knot, and a few devices that somehow didn't make it back to the right spot. Keeping classroom technology organized and.
