50 Kwh

Thick shell, well protection for inside cells

BMS customization supported

## Overview

---

Guinea-Conakry has inaugurated a 200 KW solar photovoltaic plant in Siguirini, designed to supply electricity to more than 800 households and reach approximately 72,000 people in the region. The facility was officially opened earlier this month by Namory Camara, Minister of Energy of. What sets this container apart is that it is able to interface three energy sources: the grid (existing), a backup diesel generator (existing) and photovoltaic energy, with very-high capacity 6,000 cycle batteries and 100% DOD (depth of discharge) - unique on the market. The batteries can be. The Koumaguéli Solar Power Station is a 40 MW (54,000 hp) solar power plant under development in Guinea. When completed, it is expected to be the largest grid-connected, privately funded solar power plant in the country. The project will electrify the cities of Kankan and. Solar is at the forefront of this: many of the sunniest nations in the world are on the continent, and solar-power generation in West Africa as a share of all renewables has increased rapidly over the past decade (see figure 1).

## Khoumaguéli Solar Power Station

The power station is located near the town of Linsan in the Kindia Region, in the central-western part of Guinea. Linsan is located about 370 kilometres (230 mi) by road, north of Kindia, the regional capital. Linsan is approximately 472 kilometres (293 mi), by road, northeast of Conakry, the capital and largest city in the county.
