

Fishpond Solar Photovoltaic Power Generation Scam

Overview

In this type of scam, fraudsters lure homeowners by offering "free" solar panels, claiming that government programs or grants will cover the entire cost of installation. It's an eco-friendly alternative and a potential source of savings for homeowners. Like any industry experiencing rapid growth, the solar sector isn't immune to unscrupulous practices and solar fraud. SCAMMERS, LIARS, and false advertisers. Oh, yeah, Edit here, To even post this negative review, I was required to provide an email address, or login with my social media accounts (which required me giving them access to all my future meta information, likely to be sold ILLEGALLY to advertisers to. Solar panel scams target homeowners interested in installing solar energy systems. Recently, the FTC also issued an alert to warn consumers about solar power scams, such as free solar panels. While the best solar panels can offer significant benefits, including reduced energy costs and a smaller carbon footprint, the growing industry has unfortunately attracted its share of scammers and unethical companies. Be aware of solar energy scams - everything from.
