Singapore Flow Battery Store Energy Market Size 2026: M& A

The Singapore flow battery store energy market is on a transformative trajectory, characterized by technological innovation, strategic capacity expansion, and regional integration.

[Learn More](#)

Singapore flow battery maker VFlowTech raises US\$20.5 million

Vanadium redox flow battery (VRFB) company VFlowTech has raised investment to scale up its manufacturing, extend its reach and enhance the digital capabilities of its tech.

[Learn More](#)

This flow battery startup is powering an island - and a greener future

The firm is a long-duration energy storage solutions provider that manufactures low-cost and efficient vanadium redox flow batteries (VRFBs), which are typically used for grid energy storage.

[Learn More](#)

This flow battery startup is powering an island

Vflowtech, a Singapore-based innovator, is powering Jurong Island, an industrial hub, with its vanadium redox flow batteries (VRFBs). This project paves the way for a cleaner and more sustainable future ...

[Learn More](#)

Flow battery startup VFlowTEch banks \$20.5M as ramp up continues

Singapore's VFlowTech has secured a

substantial \$20.5M funding round to accelerate deployment of its vanadium redox flow batteries that aim to offer long-duration storage.
