

Fujie Solar Power Generation System

Overview

The project, operated by the China Three Gorges Corporation, is the country's first offshore PV project built in a sea area with high wind speeds, and the first offshore PV project in Fujian. [DOWNLOAD DATASHEET](#) [DOWNLOAD MANUAL](#)

Higher yields / Safe & Reliable / Smart / User-friendly Smart Monitoring Platform Thanks to the smart monitoring platform, Deye full series inverter products support remotely shutdown immediately when accident occurs. Setting parameters and FW update remotely. a major player in the global solar inverter market. Fuji Solar Inverter Technology Co. is dedicated to providing complete photovoltaic power system solutions, including a PCS for High-Capacity Solar Power Generation. is a high-tech enterprise focus on off-grid solar power generation since the establishment of 2006. We own a number of invention patents and utility model patents. Based on the proprietary technology of controller & inverter and strong R & D capability. All products in Fuyesen solar have passed TUV, CE, Japan JPEA, Golden Sun, CQC leader, CEC, CGC and other domestic and international authoritative certification and the products are exported to Germany, Japan, India, Brazil, South Africa and other more than 30 countries and regions.

Fujie Solar Power Generation System

Offshore floating photovoltaic plant in Fujian in China sends

The first phase of an offshore photovoltaic (PV) power-generation platform built in the sea off Dongshan county, East China's Fujian province, started supplying electricity to the grid on Friday.
