

Fully automatic production line for photovoltaic bipv bracket

Overview

Our automated Solar/PV modules production line includes a complete set of equipment, such as solar cells laser cutting, string soldering, welding, glass loading, layup, laminating, framing, J-Box soldering, curing, final testing, labeling, sorting, and packaging of the. Our automated Solar/PV modules production line includes a complete set of equipment, such as solar cells laser cutting, string soldering, welding, glass loading, layup, laminating, framing, J-Box soldering, curing, final testing, labeling, sorting, and packaging of the. BIPV Solar panel auto production line - solar module production line manufacturer and 100MW, 200MW, 500MW, and 1GW solar module production turnkey projects. fully automatic or semi-automatic production solutions for double glass modules, single glass modules, Perc modules, HJT, and Topcon. Watch the full commissioning of Zhongtuo's fully automatic Solar PV Bracket Production Line exported to the USA. From double-head decoiling to auto stacking and packing, the entire line runs with high speed, high stability, and full intelligent control—perfect for large-scale PV bracket. Normally our production lines can produce 2 panel sizes, each with the option for customization. Standard panel size is 2500 x 1400 mm (reduced size upon request). High Productivity: 160 modules/hour. was established in 2008 and is one of China's pioneer manufacturers of photovoltaic module production equipment. We are a comprehensive high-tech enterprise. 30MW BIPV Production Line is for customer who plan automatic production line. We provide very simple automatic proposal,that makes whole line looks much better than manual line,meanwhile it saves labour cost and material waste by machine. Designed feature for 30MW: -compatible with whole cell&half.

Fully automatic production line for photovoltaic bipv bracket

The Fully Automatic BIPV Solar Panel Production Line

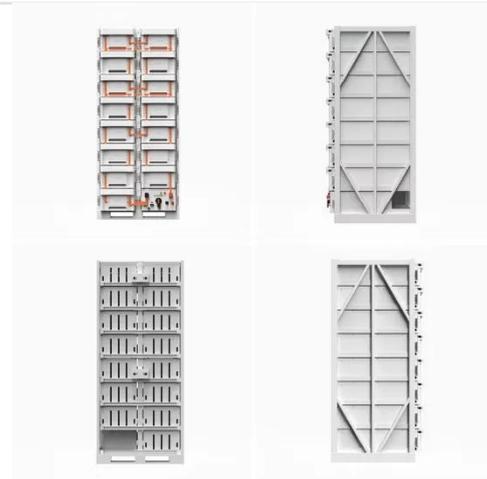

Our experienced production and assembly team is the guarantee to ensure production progress and good after-sales service. YiLi PV Tech Ltd. was established in 2008 and is one of China's pioneer ...
