Estimating surface optical properties and thermal thrust for Galileo

In absence of officially published thermal properties of satellite surfaces, we present physical thermal radiation force models for Galileo satellites based on the estimated thermal parameters, such as ...

INTEGRATED DESIGN
EASY TO TRANSPORT AND INSTALL,
FLEXIBLE DEPLOYMENT

Remote sensing of photovoltaic panel impacts on NDVI and ...

Results show clear ecological effects across dry and wet gradient: in arid zones, PV panels increase NDVI through shading, but simplified community structures decrease vegetation ...
