

# Hai Electric Lithium Battery Energy Storage System

## Overview

---

LiHub Industrial & Commercial ESS is an all-in-one lithium battery energy storage system for EV charging stations, solar farms, micro-grids, VPP, and more. Modular, safe, and expandable from 225kWh to multi-MWh for reliable backup power and peak shaving. Indicator: LCD screen to show AC volt, power percentage, Frequency Hz. Integrated Solution: Our All In One Ess Stacked Battery combines a high-performance 20kWh LiFePO4 lithium battery with a powerful built-in 10kW inverter, ensuring you have everything you need to efficiently manage your home. Haidi launched one of the world's first LiFePO4 battery cell production lines, proudly contributing to the lithium battery industry by pioneering the serial production of LiFePO4 battery cells., established in 2012, is a high-tech enterprise specializing in the R&D, design, production, and sales of lithium battery products. Haidi was the first company globally to introduce LiFePO4 batteries. On the other hand, this is what Haidi stands for. However, fires at some BESS installations have caused concern in communities considering BESS as a.
