

Harare New Energy solar Module Project

Overview

Harare, (New Ziana)-The Harare City Council is planning to establish a 50MW solar plant at its Crowborough farm at a cost of US\$50 million, a development expected to help generate power for the city's water and sewer treatment plants. Cicada Solar, a leading renewable energy provider, has proudly announced the successful commissioning of a 1.5 megawatt-peak (MWp) solar photovoltaic (PV) system at the NatPak Sacks facility in Harare. This significant project marks a major step forward in advancing Zimbabwe's national shift. At SEP we specialize in large. At SEP we work with only the best, leading. TelOne Zimbabwe is inviting bids to develop hybrid solar systems to reduce its reliance on the national grid and ensure a consistent power supply. This was revealed in the council's 2025 budget proposals. In a major boost for renewable energy and sustainable development in Zimbabwe, Sunway City and GPC Energy have announced a strategic partnership to construct a 100-megawatt (MW) direct current (DC) solar power plant.
