

# Home inverter system in China in New-Zealand

## Overview

---

In this context, GoodWe, a leading Chinese PV inverter manufacturer and smart energy solution provider, recently launched the EHB series – a high-capacity single-phase hybrid inverter designed for Australian and New Zealand households with a connected load between 5 kW and 10 kW. Designed to grow with your needs, this inverter is packed with safety features and allows seamless integration of Sigen Battery packs whenever you're ready to expand your solar system. With advanced AI technology that optimises power yield and intelligent features for real-time monitoring and. It implements a clever design that integrates a home battery, a DC EV charger and an inverter-controller unit all in one sleek package. On this page: The inverter can supply AC current at any voltage or frequency by transformers, switches and control circuits. Electricity supply to buildings must be provided as: DC if there. Harmony Energy and Clarus selected Sungrow's SG6800HV-MV inverters for the 202 MW Tauhei Solar Farm near Te Aroha, slated for completion in 2026. High quality solar inverters come with a 5-10 year warranty. Extended warranties are also available.
