

Honduras 120 MW of solar

Overview

Honduras has successfully completed the largest curved-roof solar installation in Central America, setting a new standard for renewable energy projects in the region. Diconelec, an experienced electric power and telecommunications engineering company, has launched five solar energy and battery projects in Honduras with a total capacity of 120 MWn and 169.52 MWp, the NACO I. The plant was initially expected to have a capacity between 94 and 135 MW, but has later been reduced to 50 MW. [7] The Jicatuyo dam (170 MW) on the river of the same name, a. The Honduran government and DanaSun Energy Honduras have signed an MoU to develop a 300 MW photovoltaic solar plant with 60 MW of storage in Choloma, Cortés.

Renewable energy in Honduras

In 2022, Honduras' energy mix was dominated by oil, constituting 54.9% of the total energy supply, followed by biofuels and waste at 32.2%. Modern renewables like hydro, solar, and wind, excluding traditional biomass practices like burning wood or agricultural residues, accounted for 12.9%. In 2024, the country had 849 MW of installed capacity in hydro power. There has be...
