

# How big are TCL s solar panels

## Overview

---

Dimensions: Typical panel size is 2,200mm x 1,100mm x 35mm, with a weight of 25-28kg. Did you know?

TCL's bifacial panels can generate up to 30% extra energy by capturing sunlight reflected from surfaces like snow or light-colored roofs. STC: Irradiation  $1000 \text{ W/m}^2$ , Cell Temperature  $25^\circ\text{C}$ , Air Mass AM $1.5$ . · strong frame and cell connection design helps to protect the panels against weather challenges. Innovation fueled by world-class expertise 19% of global production capacity in 2024 Discover the latest! Leading the global transition towards a more sustainable, energy-independent future, powered by innovation and clean technology. Here's how TCL sizes. TCL solar panels are designed to balance efficiency, durability, and adaptability. Efficiency: 20-22% conversion rate under Standard Test Conditions (STC). Delivery from £36 460W TCL Solar E-Class Back-Contact Double Glass Bi-Facial - for a sleek, all-black aesthetic - MCS approved.
