

How much does a 40-foot collapsible shipping container cost for an African island

Overview

A new-one trip 40 foot high cube shipping container costs around \$3500-\$5500. That price estimate includes delivery to your property. With over 320 square feet of floor space, it's big enough to hold the contents of a small warehouse, a contractor's entire staging area, or the seasonal inventory for a retail business. Both sizes are large enough to hold a substantial amount of freight and fit into loading slots on container ships. Tractor trailers that.

Container Size: A 40-foot container will naturally cost more than a 20-foot container because it holds more goods. **Weight of Goods:** The heavier the cargo, the higher the freight costs.
