

# How much does it cost to invest in Benin s energy storage power station

## Overview

---

Recent pricing trends show standard industrial systems (1-2MWh) starting at \$330,000 and large-scale systems (3-6MWh) from \$600,000, with volume discounts available for enterprise orders. With electricity demand growing at 7% annually - faster than its grid can handle - Benin's leap into energy storage isn't just smart policy, it's economic survival [1]. With 43% of Benin's population still lacking reliable electricity access [1], this \$300 million initiative aims. However, almost 59% of Benin's population currently lacks access to electricity [13] and the country is heavily dependent on external energy importation. However. Let's dissect the price of phase change energy storage systems in Benin: Wondering why prices vary?

Here's what really matters: 1. Material Quality Matters High-grade organic PCMs last 20% longer than salt hydrates but cost 30% more. Since 2019, the average electricity price in Benin has fluctuated between \$168.
