

How much does it cost to repair a generator blade in a year

Overview

A fixed annual maintenance plan may cost \$250–\$600 per year and include two inspections, discounted parts, and priority scheduling, reducing the risk of expensive single-service visits during outages. How long should I run my generator for maintenance?

Generator repair costs range from as little as \$50 for a minor repair to as much as \$2,500 to fix a major malfunction. Repair costs vary significantly based on the problem, generator type, and labor rates in your area. Routine inspections and minor repairs are generally affordable, while major overhauls and component replacements can be substantial investments. Common add-ons include installing a generator transfer switch, circuit, or subpanel, wireless monitoring, and backup batteries. The average cost to repair a generator typically ranges from \$60 to \$600, depending on the extent of the damage and the type of generator you have.
