Overview

The average cost of solar panels ranges from \$2.50 per watt installed, with most homeowners paying between \$15,000 and \$35,000 for a complete system before incentives. Federal Tax Credit Urgency: With Congress proposing to end the 30% federal tax credit after 2025, homeowners. Each year, the U. Department of Energy (DOE) Solar Energy Technologies Office (SETO) and its national laboratory partners analyze cost data for U. solar photovoltaic (PV) systems to develop cost benchmarks. These benchmarks help measure progress toward goals for reducing solar electricity costs. Solar panels cost about \$21,816 on average when purchased with cash or \$26,004 when purchased with a loan for a 7.50 per watt, but this figure can vary significantly based on several factors.
