

How much money was stolen from photovoltaic panels

Overview

The financial cost of crime to the agricultural industry was brought into sharp focus last year with NFU Mutual's 2023 Rural Crime Report, estimating that £49.5 million worth of equipment was stolen and resold. The consequences of solar panel theft and vandalism can be severe, both financially and environmentally. According to a study by the National Renewable Energy Laboratory (NREL), the average cost of. According to Spotter Global, theft from solar farms was expected to rise throughout 2024, with growing demand for panels making them both easier to sell and more valuable to steal. This program allows people with solar panels to get free electricity while forcing people who can't afford them to pay all of the costs. The New York Times reports that in one case, someone tried to sell stolen solar panels worth almost \$1,500 each on eBay for just \$100 each. Detectives placed bids and won the panels, and arrested the man when he tried to complete the transaction.
