

How to install the photovoltaic panel lift bucket

Overview

In this video, I show you a simple, safe, and effective method to get your solar panels up without damaging them or risking injury. The Fluke Module Lift™ is designed to safely and quickly transport a PV module to a roof, streamlining the installation process of solar panels. With its customizable design, this lift will work on getting solar panels to any roof from residential to large commercial. It has both an electric and battery powered option with a multitude of different. GEDA USA's is a leading solar panel lift distributor offering original Solarlift, also called a panel lift or PV panel lift, is an economical solution for the speedy and safe transport of photovoltaic and solar panels.
