

# Huawei Somalia Energy Storage Project

## Overview

---

The project involves the design, supply, installation, testing, and commissioning of a 10 MW solar photovoltaic (PV) plant integrated with a 20 MWh battery energy storage system (BESS) and a 33 kV evacuation line. The hybrid system will be developed on a 290-hectare site in. Cell to Grid Safety Huawei's Smart String Grid-Forming ESS ensures robust protection through five layers of integrated safety design, from individual cells, battery packs, racks, systems, and. The world's first batch of grid-forming energy storage plants has passed grid-connection tests in. The Government of Somalia is working with several partners to transition to renewable energy, as highlighted in the Somalia Power Master Plan and Somalia National Development Plan. The deadline for applications is . Somalia's Ministry of Energy and Water Resources has launched a tender for the development of a hybrid. Somalia's Ministry of Energy and Water Resources has launched a significant tender for a large-scale hybrid solar and battery energy storage project in northeastern Somalia.

## Huawei Somalia Energy Storage Project
