

# Huawei battery modules and solar modules

## Overview

---

Huawei says its new, all-in-one storage solution for residential PV comes in three versions with one, two, or three battery modules, offering 6. HUAWEI FusionSolar advocates green power generation and reduces carbon emissions. It builds a product ecosystem centered on solar inverters, charge controllers, and energy. Building on decades of experience in large-scale commercial and utility solar, Huawei jumped into the residential solar market in 2018 with an efficient, lightweight hybrid solar inverter offering an impressive range of features at a competitive price. “The Huawei LUNA S1 continues Huawei's unique. Combining solar panels with batteries and inverters, Huawei offers a comprehensive solution that maximizes energy production and storage for residential and commercial use. With increasing awareness of climate change and the need for sustainable energy sources, more homeowners and businesses are.
