

# Huawei s Hungarian energy storage deployment plan

## Overview

---

Hungary switches on its largest battery energy storage system at Dunamenti gas power plant to support grid flexibility near Budapest. Huawei will be actively involved in the process of achieving carbon neutrality and carbon peak. hu, the project is estimated to cost HUF 8. 5 billion. The European Commission has approved a €1. 1 billion (approximately HUF 436 billion) Hungarian scheme to support electricity storage facilities to foster the transition to a net-zero economy. The scheme was approved under the State aid Temporary Crisis and Transition Framework, adopted by the. While the concept of electricity storage was introduced into Hungarian law earlier, comprehensive policies to support the deployment of co-located BESS systems were lacking.
