

Huawei solar battery energy storage module

Overview

This LUNA2000-5-E0 battery module is intended for residential and light commercial PV+storage systems where compact, modular battery storage, self-consumption optimisation and reliable backup capability are required. 5 kWh modular blocks for home energy storage and PV. Energy Storage System Products List covers all Smart String ESS products, including LUNA2000, STS-6000K, JUPITER-9000K, Management System and other accessories product series. Huawei has unveiled a new storage solution for rooftop PV systems. “The Huawei LUNA S1 continues Huawei's unique. ing 6. Adhering to the concept of all-scenario refined management, Huawei enables module-level monitoring on the PV side, while allowing pack-level onsumers to both. The Huawei LUNA2000-5-E0 is a 5 kWh lithium-iron-phosphate (LFP) battery module engineered for modular residential energy storage and PV battery systems. Designed for high usable energy through pack-level optimization and full depth-of-discharge operation, the module integrates lightweight power. When it comes to storing solar energy efficiently and reliably with solar batteries, the Huawei Battery range stands out as one of the most advanced solutions on the market right now.

Huawei solar battery energy storage module

Huawei debuts storage solution for residential PV

Huawei says its new, all-in-one storage solution for residential PV comes in three versions with one, two, or three battery modules, offering 6.9 kWh to 20.7 kWh of usable energy.
