

Hybrid type of communication power supply cabinet for production line

WORKING PRINCIPLE

Overview

Indoor (external) type integrated cabinet, realizing multi-level modular design. Modular switching power supply, dynamic loop monitoring unit, fiber optic wiring unit, and battery backup unit can be integrated in one cabinet. It provides stable and reliable power. Our intelligent hybrid energy switching power cabinet is a cutting-edge hybrid power supply solution designed to address complex and diverse power supply environments, integrating solar power, diesel generators (generators), and mains power. More than just a simple power conversion device, it's a. Telecommunication sites need steady power to work properly. A power cabinet is the main part of hybrid power systems. It helps energy move smoothly and reliably. We deeply understand the unique needs and challenges of each communication project. ABB has a wide portfolio of smart power distribution solutions, that can be integrated into secondary switchgears, as well as complete compact secondary substations (CSS) - delivered as turnkey solutions.

PRODUCT INFORMATION

-  BATTERY CAPACITY
50kWh-500kWh
-  DC VOLTAGE RANGE
400V-1000V
-  DEGREE OF PROTECTION
IP54
-  OPERATING TEMPERATURE RANGE
-10-50°C

High Power Cabinet System Power Supply For Multi-Industry ...

MEAN WELL continues to develop high-power switching power supplies, with individual power units ranging from 3.2kW to 30kW. The output voltage/current can be flexibly adjusted through ...
