

Installing photovoltaic panels without a roof

Overview

Between community solar, solar shingles, ground-mounted solar panels, and solar sheds or carports, there are several alternatives that let you benefit from solar without installing a rooftop system. Want renewable energy but don't want a clunky grid sitting on your beautiful roof?

Consider these six solar panel alternatives. The price of electricity from the grid has been trending upward for a while now, for one. Still, brilliant technological advancements have made it possible for everyone to access solar power without having to put panels on the roof. Maybe you live in an apartment where drilling into a shared roof isn't allowed.
