World Single Phase PV Inverter Supplier

## Overview

---

Solar panels should be installed at a south-facing aspect for peak efficiency. North-facing panels aren't even worth considering. Although you could install solar panels on a covered balcony, it wouldn't really. Renter-Friendly Investment: Unlike rooftop installations, balcony solar panels require no permanent modifications, landlord permissions, or building permits in most cases. The portable nature allows renters to take their investment when moving, making it ideal for apartment living. Jump ahead: What is Balcony Solar?
