

Is it illegal to rent wasteland to build photovoltaic panels

Overview

In most cases, local policies get in the way of building solar farms on landfills. This guide breaks down off-grid living legality in 2025, by state, and what you need to know before buying raw land. [☐☐ What Counts as “Off-Grid” Living?](#)

Off-grid living typically means: [☐☐ But to be legal, you'll still need to comply with:](#) [☐☐ What Makes a County Off-Grid Friendly?](#)

[☐☐ Want help.](#) While off-grid living isn't illegal in any of the 50 states in America, numerous laws might restrict whether you can truly live off-grid. Please understand this is a work in process! If you have any information to share. Technically, no state outlaws or bans solar panels; quite the opposite. Most states have solar access laws that forbid any agreement, covenant, condition, bylaw, or contract that outlaws or limits solar installations by Homeowners Associations (HOA) or other municipal bodies. However, some states. One of the Hicks plaintiffs owned 1,000 acres, surrounded on two sides by a property owner who was allegedly planning to sell its acreage for a solar energy development with 620,000 solar panels, a battery energy storage system (“BESS”), and associated electric lines. Zoning laws dictate land use, affecting the ability to build or reside off-grid. Utility. The growth of renewable energy in the last decade has been exponential, with the nine Upper Midwest states in the Midcontinent Independent System Operator (MISO) footprint seeing significant wind and solar capacity increases.
