

It is expected that energy storage batteries will reach gWh in 2025

It is expected that energy storage batteries will reach gWh in 2025

Global Energy Storage Deployments to Reach 92 GW by 2025

According to BloombergNEF, global energy storage deployments excluding pumped hydropower are expected to reach 92 GW (247 GWh) in 2025, marking a 23% increase from 2024. ...
