

Jamaica Distributed Energy Storage Power Generation Project

Overview

The Jamaica Public Service Company (JPS) is preparing to make a transformative \$17 billion investment in its infrastructure for the upcoming year. This bold initiative aims to modernize the nation's energy grid, enhance resilience, and align with global clean energy trends. Speaking at the Montego Bay event, Minister of Science, Energy, Telecommunications and Transport, Hon. The Hon. The renewable energy facility will replace JPS's aged Hunts Bay power plant in Kingston, which runs on fuel. The “Strengthening Energy Sector Resilience in Jamaica” (SESR-Jamaica) was a three-and-a-half-year public-private partnership project of the Cadmus-led Jamaica Energy Resilience Alliance (JERA) and the United States Agency for International Development (USAID). Under the project and with USAID support, Jamaica, known for its sunny climate and commitment to sustainability, has made significant strides in renewable energy. The country's electricity cost can reach as high as \$0.

Jamaica Distributed Energy Storage Power Generation Project

Where Is the Jamaica Photovoltaic Energy Storage Power Station

The Jamaica Photovoltaic Energy Storage Power Station stands as a landmark project in the Caribbean, combining solar power generation with advanced battery storage. This article dives into the station's location, ...
