

# Japanese man-made solar generator

 **TAX FREE**    

**Product Model**  
HJ-ESS-215A(100KW/215KWh)  
HJ-ESS-115A(50KW 115KWh)

**Dimensions**  
1600\*1280\*2200mm  
1600\*1200\*2000mm

**Rated Battery Capacity**  
215KWH/115KWH

**Battery Cooling Method**  
Air Cooled/Liquid Cooled

**ENERGY STORAGE SYSTEM**

## Overview

---

Engineers at Kyoto University have developed a coin-sized generator that harvests electricity from moisture in the air. Unlike solar panels or turbines, this tiny device works 24/7, rain or shine, producing a continuous flow of clean power. These exceptional power solutions encompass. Oupes solar generators are renowned for their reliability, advanced technology, and eco-friendly energy solutions. But where are these innovative products made?

The answer lies in Japan, a country known for its impeccable production standards and cutting-edge technological expertise. Proper. Often referred to by various names — portable solar generators, portable power stations, portable generators, or even high-capacity power banks — these devices offer impressive versatility.
