

Kosovo develops solar panel manufacturers

Overview

To support the green transition in Kosovo*, one of its largest solar photovoltaic plants will be constructed on former ash dump fields near Pristina with a capacity of up to 100 MW. The electricity sector in Kosovo is almost entirely dependent on coal-fired power plants. Kosovo is significantly advancing its solar energy sector, with expectations to add 100 MW of new solar capacity by the end of 2025. As the fastest-growing solar PV company in the region, we pride ourselves on our expertise, innovation, and unwavering commitment to quality. Offering the full suite of services tailored for the energy. taic panel sector. Our company, in addition to designing, installing and maintaining photovoltaic systems in Kosovo, has managed to become part of international projects, where we have designed projects in countries such as: Germany, Italy, The Netherlands rizes for quality.
