

# Kuala Lumpur Monocrystalline solar Panel Price

## Overview

---

A typical solar system for residential use could cost anywhere from RM14,000 to RM46,000. This price range varies depending on the type of house and roof size, according to the Malay Mail [1]. Each solar cell is cut from a pure silicon ingot, allowing electrons to flow more efficiently through the material. This results in higher energy conversion rates compared to other panel. A typical residential solar panel system in Malaysia is 6.6kW and a good quality installation will cost between RM18,500. But why the big difference in cost?

Whether a 6.6kW system is an appropriate size installation for you or not is a good question and will depend on your. This blog post breaks down the real pricing, what affects solar panel costs, available government incentives, and the return on investment (ROI) you can expect in 2025.
