### Go big or go small . . . what's the smart solar power play?

As we transition to a low-carbon, all-electric world, we can now tap into a solar farm in a different state, or install panels on our own homes. All solar projects reduce our reliance on fossil ...

## **Artificial intelligence powered large-scale renewable integrations in**

Large-scale renewable energy generations could lead to voltage increases in the grid, which are significant in the scenario of grid-

connected photovoltaic (PV) generation [12].
