

Lifting device for photovoltaic panels

Overview

The Solar Panel Lifter system allows easy installation and manipulation of solar panel modules in field via attachment to a variety of mini-excavators. This system reduces worker fatigue and wind gust concerns, increases worker safety, and gently handles the delicate modules. The Fluke Module Lift™ is designed to safely and quickly transport a PV module to a roof, streamlining the installation process of solar panels. The device uses your existing fiberglass Werner or Louisville extension ladder. Specially designed with a custom carrier that functions as a cargo receptacle. Lightweight (just 25kg), fully assembled solar panel hoist that cuts labour needs, eliminates risks, and gets panels up in seconds. Now shipping worldwide - eligible for \$1,000 SafeWork NSW rebate! Manual lifting forces crews to: Installers worldwide need a reliable, portable solar panel hoist that. Tie Down will repair or replace, free of charge, any part, or parts of the TranzVolt Lift Hoist that are defective in material or workmanship or both.
