A new milestone in Madagascar's energy transition

Construction of the 40 MWp solar plant is now in progress, positioning Moramanga as one of the largest solar sites in Madagascar. The project's first phase,

scheduled for completion in ...

[Learn More](#)

Madagascar: Clean solar power replaces heavy fuel power

Thanks to the high level of solar radiation in Madagascar, the solar system can ensure the average power requirement of at least 20,000 Madagascans and avoid the emission of around 4,000 tons of ...

[Learn More](#)

? Moramanga: the solar power plant that lights up Madagascar and

The Moramanga solar power plant in Madagascar reduces dependence on imported fuel and lowers the national energy bill.

[Learn More](#)

Madagascar's Solar Plan Gains Momentum

This solar venture, supported by a 3.2 MWh battery system, aims to cut energy costs and improve electricity reliability

for the island's residents, covering 85% of daytime and 41% of nighttime ...
