Mc industrial 2 solar generator how to make

Overview

The solar panel recipe was changed to the current recipe from this: I:energyGeneratorSolar=100 and change it to any number you want (100 = 1 EU/t). On modpack servers, go to IC2. You can change the value there. The Solar Panel will only create EU during a clear day, and if there are no opaque blocks above it. You can determine whether or not your solar panel is working by. This tutorial will be a simple tutorial on how to get established with IndustrialCraft 2, and will advise you on what to do both with and without GregTech 4, as GregTech makes many recipes harder. 2 Always use an Electric Wrench! 8. 1 Why a Compressor?

11 Mining Drill! I. Panel,please see Solar Panel (RedPower). They require little effort to set up correctly,and each one consistently provides 1 EU/t on clear,sunny days,and as long as the more expensive. Solar Panels are a common type of EU Generator used in IndustrialCraft 2.
