

# Mexico Energy Storage Island Power Station

## Overview

---

Our 464MW Great Island Power Station is located on the shores of Waterford Harbour at Great Island, Co. The gas-fired station entered commercial operation Mexico is aiming for a renewable energy mix of 50% by 2050. System integrator Quartux will soon deploy the largest battery system in the Mexican energy storage market, the company's managing director told Energy-Storage. news, discussing opportunities and challenges in the Among the company's other energy storage projects is a 200 MW, four-hour duration. The White Paper on Energy Storage in Latin America and the Caribbean, published by the Latin American Energy Organization (OLADE), highlights Mexico's introduction of a groundbreaking regulation in the region. The Ministry of Environment and Natural Resources (Semarnat) last week conditionally authorised the. On February 17th, 2023 (February 16th, Beijing time), the construction of the first phase of the 120 MW Peñasco Port solar power project in Mexico was completed by the Federal Electricity Commission (CFE).
