

New Energy Storage Industry Development

Overview

Will growth continue to accelerate in the Middle East and Europe, where government-led tenders support new additions?

Drawing on unique insight from Wood Mackenzie Lens Energy Storage, our new report sets out Five trends to look for in global energy storage in 2026. China sets “capacity price” floor for grid-scale storage, tying payments to coal benchmarks Beijing's new rule lets standalone storage earn fixed-cost payments for availability, not energy delivered. WEG secures funding for Brazilian battery manufacturing plant The new plant will increase WEG's. Installations passed 100 GW for the first time – a milestone achieved even as some of the largest energy markets grappled with significant policy shifts. China, for instance, removed the mandate to install storage with new renewables. Instead, they will be relying on market mechanisms, introducing.
