

# New Energy Storage Manufacturing Enterprises

## Overview

---

Discover 10 Battery Storage Startups to Watch in 2026 and their cutting-edge solutions! From utility-scale BESS and second-life EV batteries to non-flammable lithium systems and solid-state designs, these innovators are powering the grid of the future. 20 Frameworks, Startup. Recurrent Energy, a subsidiary of Canadian Solar Inc. (global renewable energy company) that is building one of the world's largest and most geographically diversified platforms for developing, owning and operating solar and energy storage projects. NextEra Energy Resources leads in renewable energy production, integrating advanced Battery Energy Storage Systems (BESS) to balance intermittency, ensure grid flexibility, and enhance energy security across. It is a groundbreaking energy storage solution that stores energy utilizing numerous battery technologies. " And hey, if you've ever wondered how companies store sunshine (spoiler: it's not in jars), you're in the right place.

## New Energy Storage Manufacturing Enterprises
