New Regulations on Solar Energy System Building Design

Solar PV, Solar Ready, Battery Energy Storage System (BESS)

The Building Energy Efficiency Standards (Energy Code) include requirements for solar photovoltaic (PV) systems, solar-ready design, battery energy storage systems (BESS), and BESS-ready ...

[Learn More](#)

Mapping the Codes for Solar Photovoltaic (PV) Systems

As more homes and businesses are fitted with PV systems, it is important to understand that multiple codes and standards across different disciplines must be applied to ensure a safe ...

[Learn More](#)

Green Building , US EPA

Green building approaches are codified into a number of standards and systems, such as EPA's ENERGY STAR program, the U.S. Green Building Council's Leadership in Energy and Design ...

[Learn More](#)

Passive Solar Homes

Passive solar design takes advantage of a building's site, climate, and materials to minimize energy use. A well-designed passive solar home first reduces heating and cooling loads through energy ...

[Learn More](#)

New York State Solar Guidebook

The New York Solar Guidebook has information, tools, and step-by-step instructions to support local governments managing solar energy development in their communities. The Guidebook contains ...

[Learn More](#)

Codes and Standards

The safe and reliable installation of photovoltaic (PV) solar energy systems and their integration with the nation's electric grid requires timely development of the foundational codes and standards governing ...

[Learn More](#)

Project Requirements: Design Professional

For existing buildings, solar installation work should comply with NYC Construction Codes, NYC Electrical Code, NYC Energy Conservation Code and

applicable zoning regulations.

[Learn More](#)

Standards and Requirements for Solar Equipment, Installation, ...

Expressly defining solar energy systems in the "definitions" section of the zoning code, providing definitions for the energy system type (e.g., rooftop, ground-mounted, and building ...

[Learn More](#)

Planning a Home Solar Electric System , Department of Energy

Planning a Home Solar Electric System
There are a number of steps to follow when planning to power your home with solar energy. After choosing which option is best for you to use solar (see step 3), ...

[Learn More](#)

Solar Ready Buildings Planning Guide

This document identifies the important aspects of building design and construction to enable installation of

solar photovoltaic and heating systems at some time after the building is constructed.
