

New energy storage mold manufacturer

Overview

We specialize in high-precision plastic moulds tailored for new energy applications, delivering robust and reliable solutions for components used in electric vehicles, solar energy systems, and energy storage devices. Elimold is a leading manufacturer of precision custom plastic injection molds and molded parts for new energy. With years of manufacturing experience, we work with you to accelerate your product development and streamline your supply chain, ensuring seamless execution from concept to market. We develop electronic moulds with strict dimensional tolerances to support the. That's why many companies rely on Rjcmold for the parts they need. Our engineers and technicians use their wealth of experience to provide cost-effective and practical solutions based on your needs.

New energy storage mold manufacturer

Custom new energy components

Custom-designed liquid cooling radiator components for ultra-fast EV charging stations and power electronics. Including plastic components for inverter housings, photovoltaic combiner box parts, and ...
