

New hydrogen energy small container station in Bern

Overview

SOCAR Energy Switzerland is building the first hydrogen filling station on a Swiss motorway at the Grauholz Süd filling station near Bern. Operated by the Swiss branch of the Azerbaijani public energy group Socar, the station was opened at the Grauholz rest area near Bern. The first hydrogen station in Switzerland opened in 2016, marking the start of a new era in the country's alternative fuels infrastructure. There are currently 18 refuelling stations for hydrogen vehicles in Switzerland. Most stations are located along the busy A1 motorway and extend from St. Gallen to Dietikon, Bern and Crissier.
