

# Nicaragua s highest solar

**LPW48V100H**  
**48.0V or 51.2V**

## Overview

---

With an \$83M investment from CABI, Nicaragua is building a 100 MW solar plant to cut emissions and boost its renewable energy goals. Nicaragua has secured an \$83 million loan from the Central American Bank for Economic Integration (CABI) to finance the construction of the 100 MW La Trinidad Solar Plant. This investment marks a crucial step in the country's ongoing transition to renewables, reinforcing Nicaragua's commitment to. Nicaragua, with Chinese financing, launches its largest solar plant to date—powering water systems, cutting energy costs, and deepening South-South cooperation on infrastructure for social good. It will be the country's largest green power plant, powering the national water infrastructure and. Geographical Location: Located in Central America, Nicaragua is bordered by Honduras to the north, Costa Rica to the south, the Caribbean Sea to the east, and the Pacific Ocean to the west. Its location near the equator provides favorable solar conditions across most of the country. Other names: Chilamatillo, Tipitapa Helios Power solar farm (Proyecto Solar del Gobierno de Nicaragua 4) is an announced solar photovoltaic (PV) farm in Managua, Nicaragua. Read more about Solar capacity ratings. The Solar Energy Industries Association® (SEIA) is leading the transformation to a clean energy economy.
