

# Off grid solar power inverter in Congo

## Overview

---

These systems are designed to provide a reliable power supply to remote areas, bridging the gap where traditional electrical grids are absent. The initial deployment features a 60kW/230kWh hybrid system that combines solar energy with diesel power to ensure continuous electricity. Our company, CongoSun is proud to be the exclusive distributor of Sunsynk solar products in the Democratic Republic of Congo (DR Congo). The system is built around three 15kW Victron Quattro inverters and eight BSLBATT B-LFP48-200E lithium batteries, each with a capacity of 10 kWh. Mini-grids are small-scale electricity generation and distribution systems that operate independently from the. Our cost effective systems help off-grid customers power a wide range of appliances. We distribute the Jikokoa Xtra Clean.

## Off grid solar power inverter in Congo

### Altech Group

Our cost effective systems help off-grid customers power a wide range of appliances. Our world-class solar lamps are used in homes, schools, businesses and hospitals across DRC. We distribute the ...
