

# Off-network type network cabinet for field operations

## Overview

---

Proline Voice/Data cabinets are used for housing either A/V or server equipment in wet/hot environments. With advanced environmental barrier control and durable construction, our climate-controlled cabinets provide protection against heat, dust, water, and environmental. Network cabinets are enclosed systems designed to securely store, organize, and protect networking and IT equipment such as switches, routers, patch panels, servers, power strips, and cable management components. Crafted from premium materials with meticulous attention to detail, they feature a cold-rolled, galvanized steel frame and a tempered-glass. In the realm of data management and network organization, Network Cabinets stand at the forefront, providing essential storage solutions tailored for a range of environments, from office spaces to large server rooms. Network cabinets support large, modular network switches by providing additional space for cable management and.
