ROYPOW provides one-stop energy-efficient, cost-effective C&I Energy Storage Solutions in various scenarios, including industrial park peak shaving, island microgrids, PV storage and charging stations, backup power for facilities in data centers, hospitals, commercial complexes, petrol stations. One stop industrial and home energy storage system solution for solar energy, wind energy field, and commercial facilities. One stop energy storage system solution for manufacturing facilities, hospitals, municipal infrastructure, commercial buildings and more. Our modular LFP battery packs are scalable, catering to storage requirements ranging from kWh to MWh. We have delivered hundreds of projects covering most of the commercial applications such as demand charge management, PV self-consumption and back-up power, fuel saving solutions, micro-grid and off-grid options.
