

Pack lithium battery export

Overview

Lithium batteries need to be shipped with care to avoid issues like delays or rejected cargo. Due to their potential fire risk, they are considered dangerous goods and must follow international rules for packaging, labelling, documentation, and approvals. If your business ships products containing batteries internationally, there are some important shipping and packaging considerations you will need to comply with to ensure they arrive there safely and without damage or delay. Please take a few minutes to read the below page thoroughly, including the lithium battery prohibitions section. This guide zeroes in on lithium-ion and. Volza's Big Data technology analyzes over 3.
