

Payment for Fast Charging of Photovoltaic Energy Storage Cabinets in Romania

Overview

The energy regulator in Romania has exempted energy storage resources from fees for charging from the grid. Under the new 'Order on the Methodological Norms', electricity charged from the grid and subsequently discharged back onto it is exempt from several key regulated tariffs in the country. For investors considering projects here, understanding the local legal regime is essential —laws are evolving fast, new incentives are being offered, and. In a decisive move to support its clean energy transition, Romania has overhauled a key regulatory barrier holding back investment in energy storage. Romania has taken a decisive.
