Overview

Various kinds of incentives, including cash back, discounts or credit towards your monthly utility bill, may be available to you. Certain incentives may be offered by the District of Columbia government, by your utility company or by county or municipality, while other incentives are. Impact: Net metering maximizes your bill savings and works in addition to the SREC program. While SRECs pay you for all the energy you produce, net metering ensures you also get the full retail value credit for any energy you don't use yourself. Find out what Washington DC programs are available to. In the first year, you can get a tax credit that covers up to 30% of the cost of your system, then you can save tens of thousands more over time with (1) lower energy bills; (2) net metering; and (3) the most generous renewable energy credits in the country. Get a free quote from one of our trusted Washington solar installers to see how much you can save. We work. Our nation's capital is a great place for solar, thanks to the plummeting cost of rooftop panels and home batteries. Sunrun is the leading residential solar and energy storage company in the country. Under this program, you are granted one D.
