

Photovoltaic bracket ordering price list

Overview

Wholesale Solar Brackets list from Bestsuppliers. While galvanized steel brackets dominate budget projects (¥36-¥60/m²), aluminum alloys are stealing the show in residential installations. A typical adjustable aluminum system like Xiangheng's 41" triangular frame now costs ¥123.58 after platform discounts - that's 15% lighter than last-gen models. Photovoltaic brackets are supports used in photovoltaic systems to tilt and fix the solar panels in a desired position so as to enable optimum solar energy collection and absorption. Technics: Stamping, Bending, Weld, Galvanizing. Typically, costs range from \$1 to \$5 per bracket. Additionally, homeowners are now able to own their power production more cost-effectively than ever before.
